Natural Stone Options

In natural stone, we currently offer one option—but we are working on getting more. If you have a favorite granite or marble pattern—or want to match a natural stone already in your home décor—we can also cut a special stone base for your Unipod stand.

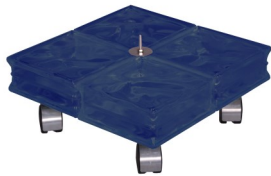

Baltic Brown Granite

Colored Glass Options

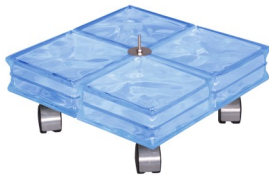

Our beautiful colored glass bases are made of high quality glass block from the US, Germany, or Italy. They look simply elegant against the brushed stainless of our stand—and the beauty of your bird. We like to think of them as “jewelry for your bird”.

Twelve of the colors are “standard”—which means we either have them in stock or can get them in a week or two. The “special order” colors come from Europe—and there's a 6 to 8 week wait to get them. All the colors are beautiful—and well worth the wait, if one is required.

Standard Colors

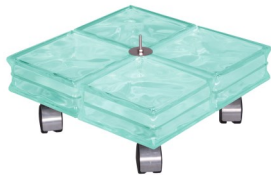

Sapphire
